Welcome to Piazza!

Piazza is a free platform for instructors to efficiently manage class Q&A. Students can post questions and collaborate to edit responses to these questions. Instructors can also answer questions, endorse student answers, and edit or delete any posted content.

Piazza is designed to simulate real class discussion. It aims to get high quality answers to difficult questions, fast!

The name Piazza comes from the Italian word for plaza--a common city square where people can come together to share knowledge and ideas. We strive to recreate that communal atmosphere among students and instructors.

Professors appreciate Piazza best when they see how it is being used.

Allow colleagues to view your class through a demo link - a restricted, read only version of your class where all students' names are anonymized and all student information hidden.

Dear Professors:

Piazza was built on the founding principle of creating inclusion in the classroom. I was one of 3 women studying computer science, and too shy to ask for help from my male classmates, I started Piazza so every student could have a voice.

We recently compiled a Toolkit for Professors. This toolkit includes an in-depth product guide, professor case studies, tips for a successful class, boosting minorities' participation in the class, information on FERPA compliance, student privacy and on our optional careers-oriented product offering Piazza Network that serves to aid students in getting jobs and internships.

We hope this serves as a helpful resource to you and other faculty members in your department as you adopt Piazza to further your students' learning and outcomes: piazza.com/toolkit

Sizden beklenenler

- Düzenli olarak Piazza girin ve ders duyurularını ve güncellemelerini takip edin.
- Piazza tartışmasını (soru & cevap) farkında olun.
- Ders konuları ve keşif aktivitelerinizi, geri bildirimleri yaparken karşılaştığınız problemler hakkında sorularınızı sorun.
- Gereksiz tartışmalardan kaçınmak için sorduğunuz aynı sorunun henüz sorulmamış ve yanıtlanmamış olduğundan emin olun.
- Sorularına cevap vererek ya da problemlerini çözme konusunda nasıl yaklaşabilecekleri hakkında fikir vererek sınıf arkadaşlarınıza yardım edin.
